Summary

Frontend developer with strong interest in web interface design. Completed an internship in frontend development and UI/UX design at SPARX Studioz & Technologies (Abbottabad). Experienced in HTML, CSS, JavaScript, and WordPress. Also worked remotely in social media management, creating visual content with Canva and CapCut. Focused on clear layouts, usability, and consistent design.

Experience

Frontend Development & UI/UX Design Internship

SPARX Studioz & Technologies — Abbottabad | Dec 2025 – Jan 2026

- Assisted in building and styling responsive pages with HTML, CSS, JavaScript, and Bootstrap.
- Supported UI design tasks in Figma to improve layouts and user flow.
- Helped customize and maintain WordPress-based client websites.
- Worked within team projects using GitHub for version control.

Social Media Management (Remote)

Freelance / Self-Employed | Remote (Nowshera) | Oct 2025 – Jan 2026

- Designed posts, short videos, and reels using Canva, CapCut, and TikTok.
- Planned weekly upload schedules and captions for business pages using Metricool.
- Improved engagement through consistent posting and visual themes.

Projects

- Portfolio Website — Personal responsive site showcasing design and code work.
- College Website — Simple website made for university department display pages.

Education

Bachelor of Software Engineering (BSSE)

COMSATS University Islamabad, Abbottabad Campus | Graduating 2025
